

## HEALTHCARE

Near the Texas Medical Center, SKV has long handled healthcare providers' most challenging cases.

Healthcare is big business in Houston, home to both SKV and the Texas Medical Center, the world's largest medical complex. Since its inception, SKV has represented large and small healthcare providers throughout the region.

SKV has come to the aid of the healthcare industry in both civil and white-collar matters. On the civil front, SKV has obtained landmark rulings for healthcare clients, including a Fifth Circuit opinion limiting the scope of claims that can be brought against healthcare providers under the federal EMTALA act.

Our work has also encompassed contractual disputes, intellectual property, claims of fraud, and unfair competition matters. On behalf of Texas Medical Center institutions, SKV has pursued and recovered tens of millions of dollars in third-party contract reimbursement disputes. And we've also had a number of successful results representing major medical device manufacturers. But our civil healthcare clients aren't just the big guys — we also represent physicians, physician practice groups, and clinics in business disputes.

Our white-collar attorneys have successfully represented doctors, nurses, and healthcare institutions in a host of federal and state investigations. Our decades of experience representing healthcare clients in matters running the gamut from criminal investigations to professional negligence and administrative proceedings means we know healthcare and what it takes to obtain a win for our healthcare clients.

SKV's boutique size and entrepreneurial spirit give clients numerous advantages. First, we are not a distinctly defense or plaintiff-side firm; while the majority of our work is on the defense side, we have a substantial plaintiff-side practice, including for small-medium-sized businesses suing larger companies. Second, because we are a trial firm, nearly all of our team, from senior partners to paralegals and secretaries, has significant experience in

trials and arbitrations. Third, we staff matters leanly, which means that as a client, you will receive a dedicated and appropriately-sized team that learns your case thoroughly and is available to address your needs. And finally, we have never been wedded to the billable hour and are always willing to discuss alternative fee arrangements with clients. At SKV, we use a straightforward approach to evaluating your case and your needs, making sure we never lose sight of your goals.
